Curriculum vitae

Personal data

Name: Aleksandr I.

Technical Knowledge and Skills

React, Angular, HTML, CSS, Node.js, MongoDB, MySQL

Aleksandr is a thorough software engineer with a deep understanding of software systems and extensive experience in software architecture, planning, and developing complex systems. He has over 8 years of experience extending and improving an existing project, or developing one from scratch. He can handle difficult tasks with Angular, React.js, JavaScript, TypeScript, and other technologies.

He's a great team player and thought leader, but also has the discipline to fly solo. He is able to move smoothly between technologies, and has an exceptional ability to dive into a new field and start contributing immediately.

Education

August 2006 — June 2011

Russian Federation
Barchelor Degree, Volgograd State Technical University
Faculty of Electronics and Computer Engineering
